Hello Mary --

I wanted to get this to you before today's conference call.

Please find attached TechLaw's review of the April 2015 Groundwater Sampling Event in text only and TechLaw deliverable format. Also, I don't see a TDM for this review can you send it along so we both don't get in trouble with Meiling.

Also can you send at TDM regarding the Draft Amendment 04 Long Term Monitoring and Maintenance Plan OU3 LF DP003, DP004, LF012 LF014 and LF007.

I am available to discuss with you and Linda any week but the week of April 20th.

Best regards,
Indira

Hi Indira-I think you were on distribution for this? This must be how they are rationalizing the change in the program. Once you have completed your comments, we should look at having a meeting with Linda Stone to discuss. Thanks! MTA

Good Morning Linda

The attached Well and Rationale table was sent to the BCT on Friday, September 05, 2014 at 2:41 PM. It contains the wells proposed for sampling in October 2014 along with analytes, pump placement and the rationale for inclusion or exclusion from the event. For your convenience, the "Rationale" was transferred to this year's sampling table along with the detailed rationale from the discussions in the workshop.

Note that most of the wells that are shown as "Removed/Moved from the April 2015 Event" will still be sampled. They will just be sampled in October. Those wells retain the rationale from the original table.

Thanks

Chris

Hello David

I note that the rationale for deleting the various OU1 wells is a reference to the August 2014 meeting we had in Sacramento. However, the AF never submitted minutes or consensus items to the regulators for review and concurrence. Therefore, please provide specific rationale for each of the deleted wells, e.g., deep zone well consistently non detect.

Thank you

Good Morning Linda

Per your request, we have modified Table 1 (attached) to show all variances between the April 2014 event and the proposed April 2015 event. Please feel free to let me know if you have any other questions or comments.

Thanks

Chris

David,

To expedite the State's review of the Air Force plan for this event, the State is requesting that the Air Force highlight any change from prior monitoring events. Also note, the rationale for each change should be clearly explained.

Thank you

Subject: Former GAFB April 2015 Basewide Groundwater Sampling Event

BCT Members

Please find attached a tech memo outlining details of the upcoming April 2015 basewide annual groundwater monitoring event at former George AFB.

The field work is tentatively scheduled to commence on April 13th, 2015, and is estimated to last approximately 2-3 weeks.

Please feel free to contact me if you have any questions.

Regards

Chris
